

SATYA INSTITUTE OF ENGINEERING AND TECHNOLOGY FEEDBACK FORM ALUMINI AY 2021-22

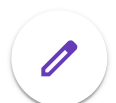

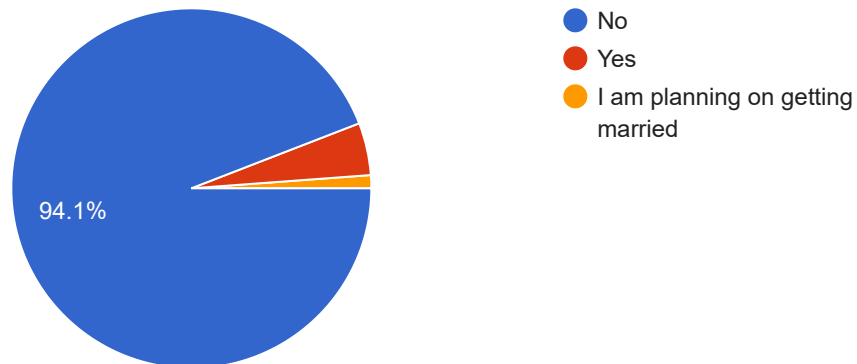

Your branch of study?

 Copy

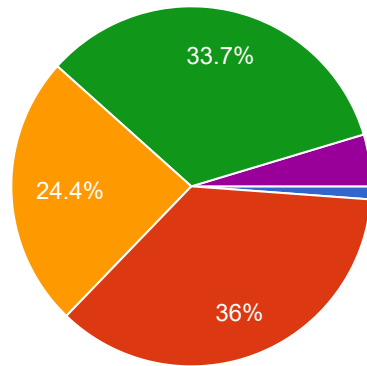

Are you married now

 Copy

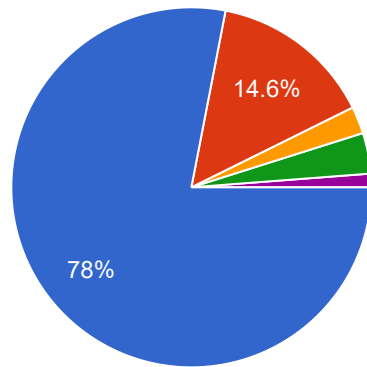

What are your activities right now?

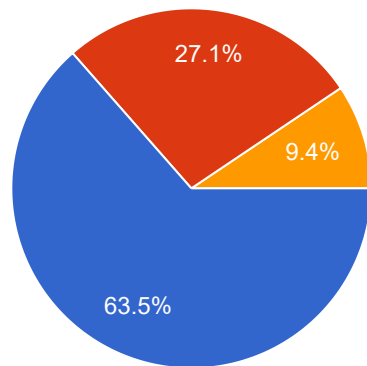

- Am still studying in SITAM
- I completed my study at SITAM
- I am engaged in a private job now
- Job search
- I am self employed

What type of job are you planning to take up after present study ?

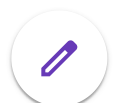

- Multi national Companies
- Government sector
- Research Organizations
- Business person
- Teaching career

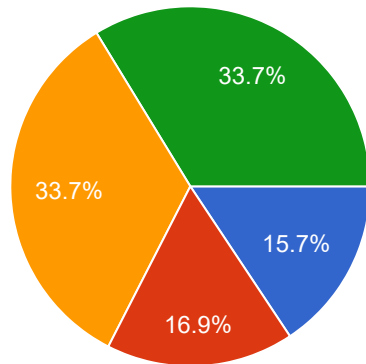

Do you think the knowledge acquired through the course-work helped you?

- Yes, the coursework is really helpful
- They helped up to an extent
- No. They were not of much use.

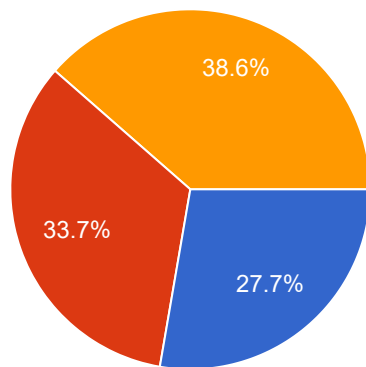

Where do you see your self after few years of graduation ?

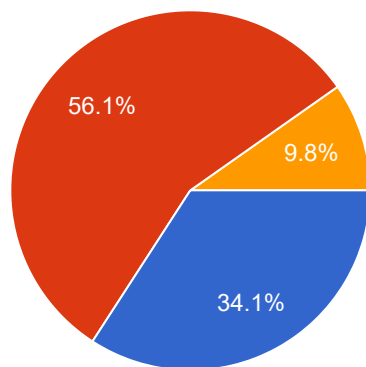

- freelance consultant
- As an entrepreneur
- Leadership role in societal importance
- In managerial position

Were you taught the techniques of analyzing a general engineering problem?

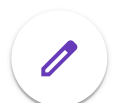

- I think I need more teaching inputs.
- I got the techniques of analyzing only simple problems
- Yes. I was taught the techniques of analysis

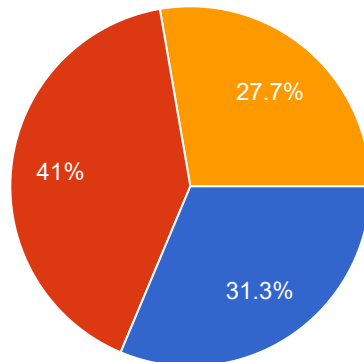

Did you learn the concepts of designing systems under real-life constraints?

- Yes. I know the principles.
- I think I need more design skills.
- Yes. I can design electrical systems.

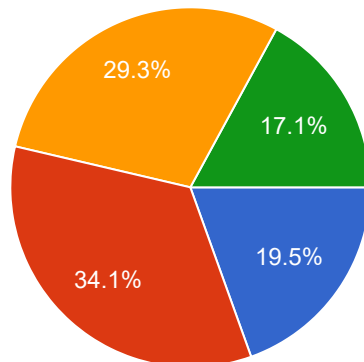

Can you propose a feasible solution to an engineering problem by making suitable assumptions?

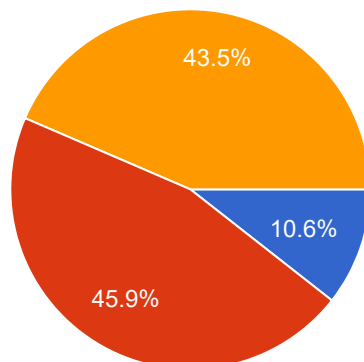

- I can do with some help.
- Yes, I can understand the problem.
- Yes, I am confident about it.

Can you use modern tools and technologies relevant to your engineering domain? Such as AutoCAD for drawing, MATLAB for computation etc.

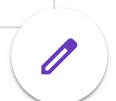

- I am totally unaware of these tools
- Yes, I know quite a few of them
- Yes, I can do with some learning.
- Yes, I am aware of the tools.

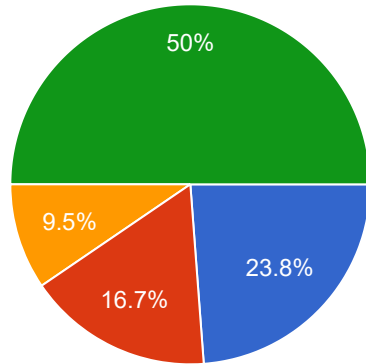

Do you think the courses at SITAM prepare you to shoulder societal responsibilities?

- Not really.
- I got some input regarding that
- Yes, they gave me lot of input

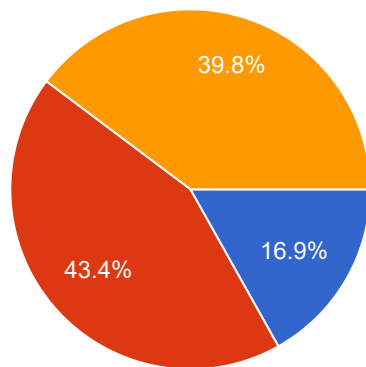

Can you propose eco-friendly solutions to engineering problems?

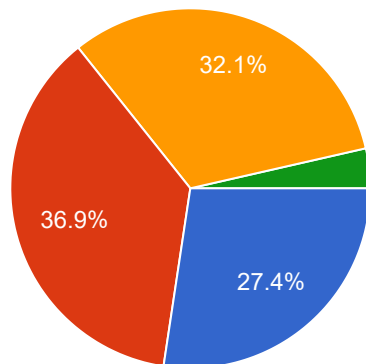

- Up to an extent
- Not much
- I don't know what "Eco-Friendly" means.
- Definitely Yes

Can you find and follow ethical code of conduct in your professional transactions?

- Not much
- Up to an extent
- Definitely Yes

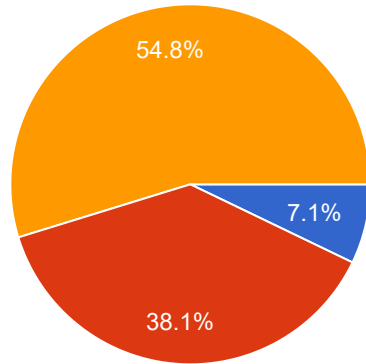

Did you ever have problems working in a group?

- A little friction
- Sometimes I find it convenient to work alone.
- None whats ever
- Lot of trouble

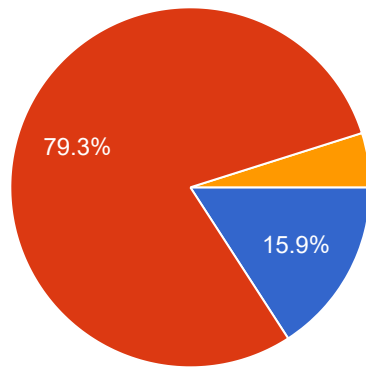

Are you comfortable in a challenging situation?

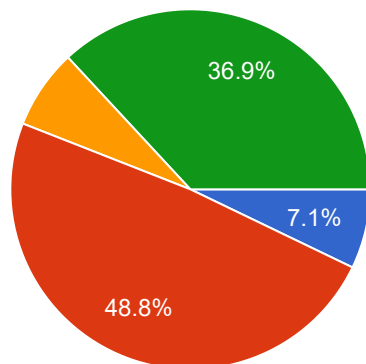

- I find it difficult to deal.
- I can manage with some stress.
- Yes, very comfortable.

Do you want to upgrade your knowledge about emerging technologies?

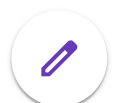

- I will try for some time.
- Yes, I will spend considerable amount of time
- I will let others figure it out and inform me

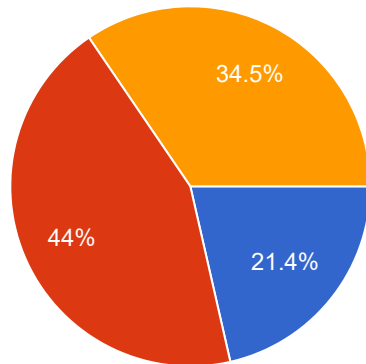

Can you draft a professional document in English?

- I seek help of others in doing that.
- Yes, I can certainly do that
- I can draft in my language but need translator to put it into English
- Yes, I can certainly do that.

When you come across a problem about which you have no prior experience, what will you do?

- I seek help from a colleague who is expert in the problem.
- I will solve it even if it means learning lot of new stuff.
- I will try to solve it for some time and then seek help
