SBTET CODE: **649**

## Qualitative Metrics

### Criterion 4 – Infrastructure & learning resources

#### 4.1.1 Teaching – Learning – classes, labs, computers, etc

The institute is situated on a self-contained campus with state-of-the-art infrastructure, facilitating the effective delivery of the curriculum while fully complying with AICTE norms. It offers an exceptional environment with top-tier facilities, creating a vibrant and positive atmosphere for students. Spread over 5.12 acres, the well-planned and aesthetically designed campus encompasses a built-up area of 20,747.13 sq. meters.

The campus features modern facilities, including academic wings for each department, administrative wings, advanced laboratories, a workshop, a computer center, spacious classrooms, a well-stocked library, a conference hall, a medical center, a sports ground, and more. Classrooms are equipped with modern teaching aids to foster an enriched learning environment. The institute upholds high standards of technical education, providing cutting-edge equipment in 34 laboratories across various departments, bridging the gap between theoretical knowledge and practical application.

In addition to six other academic streams, the institute offers an MBA program supported by world-class amenities.

The central library is fully computerized, automating book issuance with a barcode system. It boasts 3,752 titles and 21,372 volumes spanning all major fields of science and engineering. The library includes ample stack areas, a ventilated reading room with sufficient study space, and resources that support self-learning. A digital library with a comprehensive collection of e-journals, e-books, and CDs further enriches the learning experience.

The institution's Robotics Lab encourages students to foster creativity and curiosity, enabling them to develop innovative ideas through hands-on learning. This approach enhances their conceptual understanding and problem-solving skills, moving beyond conventional classroom boundaries.

The Tesla Innovation Center provides students with opportunities to implement innovative ideas and create new models, emphasizing conceptual learning over traditional classroom methods. Here, students hone their problem-solving skills and explore cutting-edge technologies.

The institute promotes a culture of continuous learning through facilities like 14 tutorial rooms, five seminar halls (each spanning 132 sq. meters), and an open-air auditorium of 418 sq. meters equipped with a high-quality public address system. A well-equipped incubation center supports budding ideas, guiding them through the early stages of engineering and technological development.

The computer center is equipped with advanced systems and a dedicated 310 Mbps leased line for uninterrupted internet access. Additional facilities include a CAD/CAM lab and an Entrepreneurship Development Cell to nurture students' technical and entrepreneurial skills.

The central library, along with departmental libraries, is Wi-Fi enabled for convenient access. Other amenities include landscaped gardens, ramps for accessibility, and CCTV surveillance at strategic locations. The campus ensures continuous power supply with generator backups, RO water purifiers, and a well-maintained canteen. A dedicated housekeeping team ensures cleanliness across the campus, while maintenance teams handle infrastructure, electrical, and garden upkeep. First-aid kits and fire extinguishers are strategically placed on every floor of each department as safety measures. Regular inspections, feedback from students, parents, and alumni, as well as a suggestion box system, ensure a conducive learning environment.

Hostel facilities include well-maintained accommodations with mess services, generator backup, water coolers with purifiers, Wi-Fi, solar systems, a gymnasium, and biogas systems. A visiting doctor ensures medical support for students.
