REASONING AND APTITUDE CLASSES

Report on Reasoning and Aptitude Classes at SITAM Engineering College

Introduction

As part of the campus recruitment training program, SITAM Engineering College organized a series of reasoning and aptitude classes for final year students. These classes were aimed at enhancing the analytical, logical, and problem-solving skills of students, thereby increasing their employability and performance in campus recruitment drives.

Objectives

The primary objectives of the reasoning and aptitude classes were:

- To prepare students for the aptitude tests commonly conducted by recruiters during campus placements.
- To improve students' logical thinking and problem-solving abilities.
- To familiarize students with the types of questions asked in reasoning and aptitude tests.
- To build confidence among students in tackling competitive exams and interviews.

Program Details

Schedule

The classes were held over a span of five weeks, from April 1, 2024, to April 28, 2024. Sessions were conducted three times a week on Mondays, Wednesdays, and Fridays, from 10:00 AM to 1:00 PM.

Dr. S. S. S. S. S.
Satya Institute of Technology
and Management
Vasundhara-575003 (A.P.)

Institute of Technology and Management
Vasundhara, Andhra Pradesh

Trainers

Experienced trainers from FACE academy, a renowned training institute specialising in campus recruitment preparation, were invited to conduct the sessions. The trainers brought with them a wealth of experience and a proven track record in helping students excel in aptitude tests.

Curriculum

The curriculum for the aptitude classes covered a wide range of topics, including:

Quantitative Aptitude

- Number Systems
- Simplifications
- Percentages
- Profit and Loss
- Time, Speed, and Distance
- Probability
- Permutations and Combinations

Reasoning

The logical reasoning section aimed to develop students' ability to think critically and solve complex problems. The key topics covered included:

- Puzzles
- Seating Arrangements
- Blood Relations
- Coding-Decoding
- Different coding and decoding techniques
- Syllogisms
- Analogies
- Series Completion
- Direction Sense
- Order and Ranking
- Venn Diagrams

Feedback Sessions: Personalized feedback to address individual student queries and improve performance.

Student Participation and Feedback

The program saw active participation from over 120 first-year students across various engineering disciplines. The feedback from students was overwhelmingly positive. Key highlights from student feedback included:

Increased confidence in solving aptitude questions.

Better understanding of logical reasoning concepts.

Appreciation for the practical approach and real-time problem-solving scenarios.

Requests for more such training programs in the future.

Recommendation

Continuous Training: Regular workshops and refresher courses to keep students updated with the latest trends in aptitude tests.

Additional Resources: Providing students with access to online resources and practice materials.

Career Counselling: Offering career guidance sessions to help students align their preparation with their career goals.

Industry Collaboration: Partnering with more industry experts to bring in diverse perspectives and insights.

By adopting these recommendations, SITAM Engineering College can further enhance its campus recruitment training program and better prepare its students for successful careers.

LECTURE ON PREPARATION FOR COMPETITIVE EXAMINATION IN THE DEPARTMENT OF MECHANICAL ENGINEERING

A lecture on competitive exams was organized at SITAM Engineering College by Mechanical Department to guide and motivate students towards excelling in various competitive exams. The event saw enthusiastic participation from students across different engineering disciplines.

The primary objective of the lecture was to educate students about the importance and benefits of competitive exams, provide insights into preparation strategies and resources available, address common challenges faced by aspirants, and inspire students to set and achieve their career goals.

The speaker began by emphasizing the significance of competitive exams in shaping one's career. Competitive exams not only open doors to prestigious institutions and job opportunities but also help in personal growth and development. An overview of various competitive exams relevant to engineering students was provided, including Graduate Aptitude Test in Engineering (GATE), Indian Engineering Services (IES), Common Admission Test (CAT) for management studies, GRE and TOEFL, for higher studies abroad, and Public Sector Undertaking (PSU) exams.

The speaker shared effective strategies for preparing for these exams. These strategies included the importance of creating and adhering to a study schedule, recommending standard textbooks, online courses, and practice tests, emphasizing the need for regular practice through mock tests to improve speed and accuracy, and maintaining a balance between academic commitments and exam preparation.

PROF. G. S. S. S. S.
Satya Institute of Technology
Wataungarri, Wataungarri
Vizianagaram-535002 (A.P.)

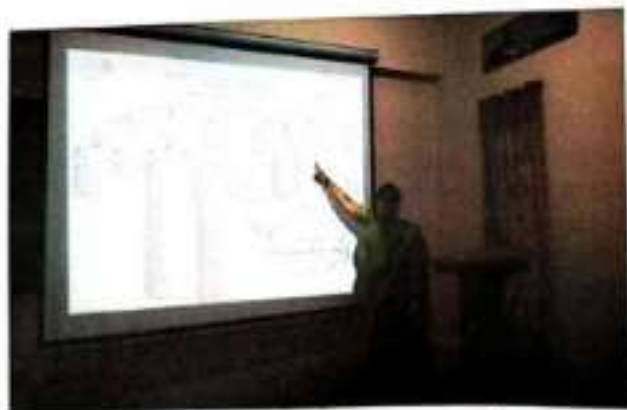

Satya Institute of Technology and Management
Wataungarri, Wataungarri-535002

The speaker addressed common challenges such as managing stress and avoiding burnout, handling difficult topics and subjects, and staying motivated throughout the preparation period. Several success stories of past students who excelled in competitive exams were shared to motivate current students. These stories highlighted the dedication, hard work, and perseverance required to succeed.

The lecture concluded with an interactive Q&A session where students had the opportunity to ask questions and seek personalized advice from the speaker. This session was particularly beneficial as it addressed individual concerns and provided clarity on various aspects of competitive exam preparation.

The feedback from students was overwhelmingly positive. They appreciated the practical tips and motivational anecdotes shared by the speaker. Many students expressed their renewed enthusiasm and confidence in preparing for competitive exams.

The lecture on competitive exams at SITAM Engineering College was a resounding success. It provided valuable guidance and inspiration to students, equipping them with the knowledge and strategies to excel in their chosen competitive exams. The event underscored the college's commitment to supporting the career aspirations of its students.

**LECTURE ON HOW TO PREPARE FOR COMPETITIVE
EXAMINATION IN THE DEPARTMENT OF CIVIL ENGINEERING**

REPORT:

Mrs. M. Bhargavi, Asst Professor, Dept of Civil Engineering, delivered an insightful lecture to civil engineering students at Satya Engineering College on effective strategies for preparing for competitive examinations. The session was well-attended by students eager to gain valuable advice on excelling in exams such as the UPSC Civil Services Examination.

Mrs. Bhargavi began by emphasizing the importance of understanding the exam structure and syllabus thoroughly. She highlighted the three stages of the UPSC Civil Services Examination: the Preliminary Exam (General Studies and CSAT), the Main Exam (four papers), and the interview. She advised students to familiarize themselves with the syllabus and the types of questions asked in each stage.

Next, she stressed the significance of creating a well-structured study plan. She recommended that students allocate specific hours for each subject and break down their study schedule into monthly and weekly goals. This, she explained, would help ensure that students cover the entire syllabus methodically and have ample time for multiple revisions.

Motivation plays a crucial role in preparation, Mrs. Bhargavi noted. She encouraged students to set small, achievable goals to maintain motivation and stay positive. Reading success stories of previous toppers, she suggested, could serve as inspiration.

Effective time management was another key aspect of her lecture. Mrs. Bhargavi recommended focusing on high-priority topics and areas where students are weak. She introduced techniques like the Pomodoro method to enhance concentration and advised against procrastination.

Dejankota, Vijayanagar-520012

Finally, Mrs. Bhargavi stressed the value of seeking guidance and mentorship. She advised students to seek guidance from experienced seniors or previous toppers and regularly seek feedback on their progress and areas for improvement.

In conclusion, Mrs. Bhargavi's lecture provided a comprehensive and practical approach to preparing for competitive examinations. Her insights and strategies were well-received by the students, who left the session with a clearer understanding of how to effectively plan and execute their preparation.

GATE CLASSES

REPORT

GATE (Graduate Aptitude Test in Engineering) classes were conducted at SITAM Engineering College to prepare final-year students for the GATE exams. The aim was to provide comprehensive teaching, covering all relevant topics and offering extensive practice to enhance students' performance.

The objectives of these classes included providing in-depth subject knowledge, enhancing problem-solving skills, teaching effective exam strategies, conducting regular mock tests to simulate the exam environment, and offering detailed performance analysis and feedback.

The GATE classes spanned three months, from November 2023 to January 2024, with a schedule designed to accommodate students' regular academic activities. Core subject classes were held from Monday to Saturday and doubt session was also conducted on Saturday.

Experienced faculty members in SITAM conducted the training. The methodology included comprehensive lectures covering all GATE syllabus topics, interactive sessions encouraging student participation, extensive problem-solving practice, provision of quality study materials, and regular assessments to monitor progress.

The topics covered included core subjects relevant to each engineering branch. For Computer Science, topics included data structures, algorithms, operating systems, and databases. Electronics and Communication covered signals and systems, digital electronics, and communication systems. Mechanical Engineering topics included thermodynamics, fluid mechanics, and manufacturing processes. Civil Engineering topics covered structural analysis, geotechnical engineering, and environmental engineering. Mock tests included full-length simulated GATE exams and subject-wise tests.

Doubt-clearing sessions provided personalized attention through one-on-one interactions and peer discussions to encourage collaborative learning.

The outcome of the GATE classes was enhanced subject knowledge, improved problem-solving skills, increased exam readiness, and noticeable improvement in test scores. A significant number of students qualified for GATE with commendable scores.

Students gave positive feedback, appreciating the well-structured curriculum and the expertise of the instructors. Constructive suggestions included requests for more personalized doubt-clearing sessions and additional practice papers.

In conclusion, the GATE classes at SITAM Engineering College were highly successful, equipping students with the necessary knowledge and skills to excel in the GATE exam. The structured program, experienced faculty, and extensive practice sessions significantly contributed to the students' improved performance and success.

GROUP DISCUSSION CLASSES

REPORT

SITAM college conducted daily group discussion sessions at ABHIJIT KALAM Hall, involving 10 students from two different branches – five from each. The primary goal of these sessions was to enhance the students' communication, critical thinking, and collaboration skills, preparing them for both academic and professional challenges.

Each session began with the English faculty introducing the topic and outlining the discussion guidelines and objectives. Students were then encouraged to present their viewpoints, engage in open questions, rebuttals, and collaborative problem-solving. At the end of each session, he summarized the key points, provided feedback, and suggested areas for improvement.

The discussion topics varied daily, covering a range of academic, technical, and contemporary issues. Examples included technological advancements, the role of artificial intelligence, sustainable development, ethical considerations in professional life, and innovations relevant to the students' respective branches.

The sessions resulted in noticeable improvements in the students' communication skills, as they became more confident and articulate. Their ability to analyze topics critically and collaborate effectively also saw significant enhancement. Interaction between students from different branches facilitated interdisciplinary learning and broadened their perspectives. His constructive feedback and regular performance reviews helped students track their progress and set personal goals.

INSTRUCTIONS FOR GROUP DISCUSSION:

Do's & Don'ts

- 1) **Keep Eye Contact while Speaking:** Do not look at the evaluator only. Keep eye contact with all team members while speaking.
- 2) **Initiate the GD:** Initiating the GD is a big plus. But keep in mind – initiate the discussion only when you understand the GD topic clearly and have some knowledge on the topic. Speaking without proper subject knowledge will leave a bad impression.
- 3) **Allow others to speak:** Do not interrupt anyone in-between while speaking. Even if you don't agree with his/her thoughts, do not snatch their chance to speak. Instead, make some notes and raise the points when it's your turn.
- 4) **Speak Clearly:** Speak politely and clearly. Use simple and understandable words while speaking. Don't be too aggressive if you are disagreeing with someone. Express your feelings calmly and politely.
- 5) **Make sure to bring the Discussion on Track:** If any member the group is distracted or deviated from the topic or goal then simply take initiative to bring the discussion on track. Make all the group members aware that you all need to come to some conclusion at the end of the discussion. So stick to the topic.
- 6) **Positive Attitude:** Be confident. Do not try to dominate anyone. Keep positive body language. Show interest in the discussion.
- 7) **Speak Sensibly:** Do not speak just to increase your speaking time. Don't worry even if you speak less. Your thoughts should be sensible and relevant instead of irrelevant speech.

Satya Institute of Technology and Management
Gurgaon, Haryana-122002

Overall, the group discussion sessions at SITAM College proved highly beneficial. They contributed to the holistic development of the students, equipping them with essential skills for academic success and future careers.

PERSONALITY DEVELOPMENT PROGRAM

REPORT

The Personality Development Program organized by SITAM (Satya Institute of Technology and Management) for Civil Engineering students aimed to enhance their soft skills, boost their confidence, and prepare them for workplace challenges. The program focused on improving communication skills, teamwork, leadership abilities, and overall professional etiquette.

Conducted over a week, the program included a variety of activities targeting different aspects of personality development. Experts from various fields led workshops on communication skills, leadership, and emotional intelligence, while seminars covered career planning, time management, and professional ethics. Group discussions on current civil engineering issues and debates on various topics helped enhance critical thinking, public speaking, and organization skills.

Students participated in sessions on creating effective resumes and cover letters, followed by mock interview sessions to practice responses and improve interview skills. Team-building exercises and games promoted teamwork, collaboration, and problem-solving abilities, fostering a sense of unity and cooperation. Personality assessment tests provided insights into individual strengths, weaknesses, and areas for improvement.

The outcomes were overwhelmingly positive, with students reporting increased confidence in their communication and interpersonal skills. Workshops and seminars helped students understand professional behavior and workplace expectations. Group discussions and debates improved articulation and confidence in expressing opinions, while mock interviews provided realistic job interview experiences. Team-building activities enhanced collaborative skills and built a strong sense of camaraderie among students.

Personality assessment tests were instrumental in helping students identify strengths and areas for improvement, crucial for personal and professional growth. Based on feedback, recommendations for future initiatives included conducting such programs regularly, incorporating more industry-specific sessions, and establishing a mentorship program with industry professionals and alumni. Creating a platform for students to share experiences and learn from each other's journeys was also suggested.

The Personality Development Program was a significant success, providing students with the tools and skills necessary to excel in their professional lives. By fostering confidence, improving communication, and promoting teamwork, the program has laid a strong foundation for the students' future careers. The insights and experiences gained will undoubtedly contribute to their overall personal and professional development.

NOTICE

All the Hods are hereby informed that a pretest and an online demo interview should be conducted for all the final year students so as to make them get prepared for the placement drive. Students need to attend the test and interview without fail.

HEADQUARTERS OFFICE: RAJIBARCOA, VISHNUNAGARAM - 560022, ANTHEM PRABHU, INDIA
W 08767 88611/55, 08622-334775/6

A majority of students displayed a good understanding of their subject matter, though some needed to improve their ability to explain complex concepts clearly. Practical problem-solving skills varied, with some students excelling in technical challenges and others needing more practice. Most students communicated effectively, but some struggled with maintaining eye contact and engaging with interviewers due to unfamiliarity with the online format. Common issues included filler words, long pauses, and insufficiently sustained responses. Students generally performed well in situational judgment questions, demonstrating a good grasp of soft skills. A few students needed to work on articulating their thoughts more succinctly and confidently.

The demo interviews highlighted the importance of preparation, both technically and psychologically, for online interviews. Students appreciated the constructive feedback and felt more confident about their upcoming real interviews. To further improve, it is recommended that students engage in more mock interviews to build confidence and refine answers. Regular technical and behavioral training sessions should address specific areas of improvement. Ensuring students have access to reliable internet and proper equipment for online interviews is crucial. Providing resources and tutorials on using various video conferencing tools effectively is also important. Establishing a continuous feedback loop where students can seek guidance and support from faculty and peers will be beneficial. Organizing group discussions to share experiences and strategies for successful interviews can enhance the overall learning experience.

In conclusion, the demo pre-online interview was a valuable exercise in preparing civil engineering students for the realities of digital professional interviews. By identifying strengths and areas for improvement, the initiative has set a foundation for students to enhance their skills and approach real-world interviews with greater confidence and competence.

MOCKTEST FOR CIVIL STUDENTS

REPORT

The demo test for civil engineering students was conducted through Google Forms to evaluate their technical knowledge, problem-solving skills, and readiness for online assessments. This report outlines the process, objectives, and outcomes of the demo test, along with recommendations for future improvements.

The primary objectives of the demo test were to familiarize students with the format of online assessments, gauge their understanding of civil engineering concepts, and identify areas for improvement. Students were informed about the test in advance and were given instructions on how to access and complete the Google Form.

The demo test included multiple-choice questions, relevant to civil engineering. Questions covered various topics such as Strength of Materials, Construction materials, Geometrical Engineering, and Environmental Engineering. The test was designed to assess both theoretical knowledge and practical application skills.

COMMUNICATION SKILLS TRAINING PROGRAM

Report on Communication Skills Program:

Introduction:

SITAM Engineering college conducted Communication Skills Training Program for the students to make the students prepared to face interviews confidently. SITAM Principal, Dr. D.V. Rama Murthy said "Effective communication skills are crucial for engineering students to succeed both academically and professionally. Embracing this, many engineering programs have integrated communication skills classes into their curricula. The students will be benefited by participating in this type of program".

Objectives:

The primary objectives of communication skills classes for engineering students are to:

- Enhance verbal and written communication
- Improve public speaking skills.
- Foster teamwork and collaboration.
- Develop technical writing proficiency.
- Strengthen interpersonal skills.

Course Structure

Communication skills classes for engineering students typically include a mix of lectures and interactive activities. The courses are designed to be engaging and often employ multimedia tools, role-playing, and group projects.

Principal
Satya Institute of Technology
and Management
New ASD Office-520002, AP

Principal
Satya Institute of Technology And Management
Satyapuri, Vijayanagara Dist. - 5

Lectures and Theoretical Frameworks: Core/fundamental theories of communication, including models of communication, barriers to effective communication, and strategies for overcoming these barriers.

Interactive Activities: Include group discussions, debates, and role-playing exercises to simulate real-world engineering scenarios where effective communication is key.

Key Competencies

Verbal Communication:

Public Speaking: Techniques for clear and confident speaking.

Presentation Skills: Use of visual aids, structuring presentations, and engaging the audience.

Intrapersonal Communication: Active listening, body language, and effective questioning.

Written Communication:

Technical Writing: Writing reports, research papers, and project documentation.

Email and Professional Correspondence: Crafting clear and professional emails and letters.

Leadership Skills: Leading team meetings and managing project timelines.

LECTURE ON HOW TO PREPARE FOR PLACEMENTS

REPORT

The lecture titled "How to Prepare for Placements" was held on 29/01/2024 at the Seminar Hall of SITAM Engineering College. The session was conducted by Mr. B.K. Rao, placement incharge, SITAM. The event was organized to equip first-year students with the necessary skills and strategies to excel in their placement processes.

Mr. B.K. Rao began by emphasizing the importance of a well-structured resume. He highlighted the need to include relevant details such as academic achievements, internships, projects, and extracurricular activities. Tailoring resumes to match the job description of the applied position was stressed, ensuring each application has a customized resume to reflect the skills and experiences pertinent to the role.

In terms of acing aptitude tests, he shared preparation strategies such as regular practice using online platforms and resources, effective time management during the test, and the importance of taking mock tests to simulate the actual exam environment.

Enhancing technical skills was another key point. He encouraged focusing on core subjects related to the student's discipline, gaining practical knowledge through internships and projects, and leveraging online platforms like Coursera and EdX to learn new technologies and tools.

For interview preparation, conducting thorough research about the company, its culture, and the job role was recommended. Participating in mock interviews to gain confidence and

WORKSHOP ON PRECAST CONCRETE STRUCTURE DESIGN FOR
DEPARTMENT OF CIVIL ENGINEERING

• **Objective:**

1. When identical members are cast, it is advantageous for the same formwork to be used.
2. As better-quality control can be exercised in the factory or yard site, concrete of superior quality can be produced.
3. Smoother exposed surfaces can be produced, which may not require plastering.
4. Precasting work can be carried out under all weather conditions if adequate protection is provided in the casting yard.

One day session on "Design and Construction of Pre-Stressed Concrete Structures" at SITAM

A day was conducted on the design and construction of pre-stressed concrete under the guidance of the civil engineering department at SITAM Engineering College under the local Government.

Dr. Subhrajit V. S. Rao, Technical Director of Ram Tej Technologies Corp and Design Company of Japan was the chief guest for this program.

The intricacies of pre-cast concrete structures, the latest design principles and construction methods are explained in detail.

Addressing the students, Director of SITAM, Dr. Mঞ্জی Sankarshan Rao advised them to combine beauty with functionality, sustainability with efficiency, and make commitment to creating structures that stand as a testament to human progress.

Dr. D. V. Hanumanthly said, "Pre-stressed concrete structures will beautify our cities, architects and designers will take steps towards a more resilient, sustainable and visually stunning built

environmental and such programs will guide students to shape accordingly. He congratulated the civil department for organizing such a program.

In this program, the head of the civil engineering department Dr. G. Ravi Kumar, civil department faculty and students participated.

• **Benefits in terms of Learning/Skill Knowledge obtained:**

- Construction methods involve creating building components off-site in a factory or manufacturing facility, and then transporting them to the construction site for assembly. These components include walls, floors, beams, columns, and other building elements.
- Precast concrete offers a range of benefits including speed of construction, improved quality control, reduced on-site labor requirements, and the ability to create complex shapes and finishes.
- The process begins with the creation of moulds or forms, which are used to shape the concrete into the desired components. Once the concrete is poured into the moulds, it is allowed to cure for a specified period of time, typically 28 days. During this time, the concrete gains strength and durability.
- Once the concrete has cured, the precast components are removed from the moulds and transported to the construction site.

PRETALK ABOUT THE COMPANIES

REPORT

A pre-talk session about MEEI (Mahila Engineering and Infrastructure Limited) was held at SITAM (Satya Institute of Technology and Management) to inform and engage civil engineering and Mechanical Engineering students about the company's operations, opportunities, and expectations from prospective employees. The session aimed to bridge the gap between academic learning and industry practices, providing students with a comprehensive understanding of MEEI and its role in the engineering sector.

The session began with an introduction to MEEI, detailing its history, mission, and core values. The speaker, a senior executive from MEEI, outlined the company's growth trajectory, major projects, and its contributions to the infrastructure sector both in India and globally. Students learned about the diverse range of projects undertaken by MEEI, including those in water management, power generation, oil and gas, transportation, and industrial infrastructure.

One of the key focus areas of the session was MEEI's organizational structure and work culture. The speaker emphasized the company's commitment to innovation, quality, and sustainability. Information was provided on how MEEI fosters a collaborative work environment, encouraging continuous learning and professional growth. The company's approach to employee welfare, including training programs, career advancement opportunities, and work-life balance initiatives, was also discussed.

The session included a detailed overview of the recruitment process at MEEI. The speaker explained the various stages of the hiring process, including application, screening, interviews, and final selection. Tips were provided on how students can prepare for each stage, highlighting the skills and attributes MEEI looks for in potential candidates. Specific attention was given to technical proficiency, problem-solving capabilities, teamwork, and communication skills.

Sept. highlighting the skills and attributes MIE looks for in potential candidates. Specific attention was given to technical proficiency, problem-solving capabilities, teamwork, and communication skills.

Students were particularly interested in the types of roles and career paths available at MIE for civil engineering graduates. The speaker outlined various entry-level positions, as well as the potential for growth within the company. Examples of career trajectories of current employees who started in similar positions were shared, showcasing how one can progress and diversify within MIE.

A question-and-answer segment allowed students to engage directly with the speaker, asking about specific projects, job roles, and personal experiences within the company. This interactive portion provided valuable insights and clarified student queries, making the session highly informative and engaging.

The outcomes of the session were highly positive. Students gained a clearer understanding of MIE's industry presence, organizational culture, and employment opportunities. The information provided on the recruitment process and career growth was particularly beneficial, helping students to better prepare for future job applications. Additionally, the session enhanced student awareness of the skills and attributes needed to succeed in a competitive engineering environment.

**GUEST LECTURE ON EMERGING TECHNOLOGIES IN TELECOM
SECTOR (WIRED&WIRELESS)**

RESOURCE PERSON: DR. MALA SATYA PRASAD

DATE: 07th February, 2024

VENUE: A/c Seminar Hall

DURATION OF ACTIVITY: 01:00 Hrs

NUMBER OF STUDENTS PARTICIPATED: 05

NUMBER OF FACULTY PARTICIPATED: 02

MODE OF SESSION: Offline

OBJECTIVE:

The main objective of **EMERGING TECHNOLOGIES IN TELECOM SECTOR (WIRED&WIRELESS)** is to introduce & to communicate Wireless technologies i.e. from first generation to latest 5G Technology.

BENEFITS IN TERMS OF LEARNING SKILL KNOWLEDGE:

In this activity the students learned new things like how the technology used in real life, how the calls get connected in GSM Technology, how to reduce the air channel interference and how to get old security in cell coverage services in Telecom.

As a part of this, it is stated that the Telecom sector is well developed and new things and innovations are coming in technology day by day. Especially related to technology, from basic telephone system to mobile phone (wireless), GSM, GPS, Broadbanding, Wi-Fi, Satellite Systems and their standards, GPRS and 3G Technology, IoT, M2M Communications are well explained. He stated that instead of using technology to address the students, they should increase awareness on the respective subjects and also there are more job opportunities. It has been mentioned that if you do a job in the core industry, there will be job satisfaction and in the coming days, there will be further development, changes and job opportunities.

On this occasion, the students who attended the lecture said that they got an understanding of the basic technology related to current communication, and for that, Soya Prasad was congratulated.

In this program, Director of SITAM Educational Institutions Mr. Dr. Magji Shashi Bhawan, College Principal Dr. D.V. Ramamurthy, E.C.E. Head of Department Dr. T. D.V. A. Naika, Teachers and Students participated.

BSNL, SITAM sign MoU to train students in advanced technologies

ఇదొక ప్రత్యేక కేంద్రం ఏర్పాటుకు ఒప్పందం

A group of officials from BSNL, SITAM and other institutions signing the MoU.

విద్య నిపుణులు విద్యకుంటూ, కూలం ప్రతిపదా, చురుకుగా నిలువాలి

The MoU Signers

A Memorandum of Understanding (MoU) was signed between BSNL and Sathy Institute of Technology and Management (SITAM) to train students in advanced technologies in IT, AI and ML technologies.

The agreement was signed by SITAM principal, P.V. Sathya Murthy, and BSNL, Chief Executive Officer, Sathy Institute of Technology and Management, Sathy Murthy. The MoU is for a period of three years, starting from the year 2023-24.

The MoU is for a period of three years, starting from the year 2023-24.

SITAM principal, Sathy Murthy, said that the MoU is a landmark event in the history of SITAM and BSNL. He said that the MoU will enable SITAM to provide advanced training to its students in the field of IT, AI and ML technologies.

BSNL and other students could be trained in IT, AI and ML technologies through the MoU. The MoU is for a period of three years, starting from the year 2023-24.

BSNL, SIAM sign MoU to train students in advanced technologies

SIAM president (left) with BSNL officials (right) signing MoU for training students in advanced technologies at VITAM campus in Chennai.

The Hindu News

A Memorandum of Understanding (MoU) was signed between BSNL and Satya Institute of Technology and Management (SIAM) for training students in LTE, AI and ML technologies.

The agreement was signed by SIAM president V.V. Ramu Murthy, and BSNL Vice-president S.M. Sathya Prasad. Sathya Prasad said that through this agreement, students of ECE, CSE, artificial intelligence (AI) and ML will get a first try to work on AI, Machine Learning and ML technologies.

SIAM president Ramu

Murthy said that students could be trained on LTE, AI and ML technologies through the BSNL training portal. Later, Mr. Sathya Prasad gave a lecture on the developing telecom technologies in the department of electronics and telecom, multimedia engineering.

The joint programme on the subjects include from basic to advanced systems in mobile phone networks, GSM, LTE, broadband, Wi-Fi, satellite systems, cloud data, edge, AI technology and IoT communications. He also mentioned that working in the core industry will make one skilled.

SIAM vice president S.M. Sathya Prasad and students participated.

A SESSION ON INITIATING CAREER BUILDING IN ELECTRONICS

RESOURCE PERSON: SRI NALLAMILLI VENKATA REDDY

DATE: 16th August, 2021

VENUE: A4 Seminar Hall

DURATION OF ACTIVITY: 02:00 Hrs

NUMBER OF STUDENTS PARTICIPATED: 115

NUMBER OF FACULTY PARTICIPATED: 1

MODE OF SESSION: Offline

OBJECTIVE:

The main objective of a session start up in electronics is to make awareness about various aspects of startups such as ideation, funding, strategic marketing and growth in electronics.

Sri Nallamilli Venkata Reddy
Vengal Rao, Guntur-520 015

Principal
Satya Institute of Technology And Management
Vengal Rao, Guntur-520 015

BENEFITS IN TERMS OF LEARNING SKILL/KNOWLEDGE:

In this activity we learned new things like how to solve a problem in start-up companies, day-to-day challenges in start-ups, great analysis on particular field after do any mistakes, recognize the particular problem and solve it, based on my analysis these are the benefits of activity.

An interactive session was organized as a part of NTAM Institute Innovation Council (IC) to the college called "INITIATING CAREER BUILDING IN ELECTRONICS" at NTAM Engineering College on 30th August, 2023, Virinjipuram.

Mr. Nallamilli Venkata Reddy, the Founder and CEO of Vision Electric and Tech Team Solutions was the chief guest for this program. He explained the main purpose of the start-up system, its importance and profit and loss in electronics. He created awareness among the students - how to overcome and face the obstacles in technical and business operations that exist between them.

He also explains the start-up's solution in electronics determines how much money anyone with a stake in the company — whether that's an investor, founder or equity-holding employee — will reap or risk. Also, he expressed the opinion that they should understand and make new innovations to solve the problems in the society especially in Electronic Field.

The best way to set goals for your start-up is to first identify what you want to achieve, and then develop a plan of action to make it happen. Once you have a clear idea of your goals, you can then begin setting specific, measurable, achievable, relevant, and time-bound (SMART) goals.

It helps them develop a vision about what they want from their lives and helps them work towards achieving that goal. One can start thinking about his own venture in electronics at any age, starting a business as a student can be a great way to gain experience and make some extra money. Here are some steps you should take to get started. Identify what your business will offer - Define the products and services you will provide.

These are the benefits start early as a student's:

- **Energy factor.** One of the biggest advantages for college students is you are full of energy and willing to experiment something new.
- **Available resources**

NTAM
Institute
Virinjipuram
30th August 2023

Principal
NTAM Institute of Technology And Management
Virinjipuram, Virinjipuram 577111

- Support of friends and family
- Failure is not actually failure
- Lack of funding

Start-ups are risky business, but can also be an exciting journey. Your part of a team that's building a new product and the experience will teach you to be independent, flexible, resilient and make the most out of scarce resources.

Advantages of a Startup:

- Freedom and Flexibility-When you own a business, you are your own boss
- Creativity- As the founder, your start up is based on your vision
- Valuable Relationships-Networking is a huge part of startup success
- Personal Growth
- Positive Impact
- Long Hours
- Stress and Uncertainty
- Self-Doubt

A startup's valuation denotes what it is worth at a given point in time. Factors that make up the valuation include the development stage of the product or service; proof-of-concept is in market; the CEO and their team; relations of peers or similar start-ups; existing strategic relationships and customers; and sales.

According to our analysis of the sector, we came to know that teamwork and personal skills play key roles in the growth of the startup business. Mutual understanding and ideology sharing among a team are vital parts of the business in Electronics. Creating a detailed business plan for a new venture in Electronics is not an easy task but it is necessary for long-term success. It requires research, planning, and dedication but it can provide invaluable insight into how best to launch and sustain a new business venture. With a well-thought-out plan in place, entrepreneurs can create realistic goals and make informed decisions that will help ensure their business success.

MODE OF SESSION: Offline

OBJECTIVE:

The main motto of CREATIVE EXHIBITION is to Discover real-world solutions to real-world problems in the Case Study Zone, Explore the most recent leading-edge technologies, tools & services in the college level, as incubator for new project concepts/ ideas and Find all major project concepts professional bodies under one roof, to help you decide what is best for you. It will help to gain more knowledge and share ideas to all the students.

On 30-04-20 the CREATIVE EXHIBITION is held in Siam Engineering College. The students from different branches are attended and made 26 designs with new ideas in electronics following Embedded Systems and IoT. For this CREATIVE EXHIBITION can monitor and judge by Dr. R. Gurunadha Associate Professor from ZSTU, GV. On this occasion, Dr. R. Gurunadha appreciated the students by looking at the approach and ideas of each design and discussed how to develop ideas in new fields in electronics. In this exhibition ECE Department Head Dr. T. D. V. A. Naidu and faculty member students participate. He said that according to the demand in consumer electronics, students can innovate and implement their ideas in the incubation center in SITAM. Dr. T. D. V. A. Naidu, Head of the ECE Department and Vice Principal (Admin) of SITAM College, faculty members and students participated in this program.

**RESOURCE PERSONS: B. PURUSHOTTAM CHARY, MANAGER, GREENWAVE ENERGY TECHNOLOGIES, Hyderabad**

A Two-day workshop on Design Solar Energy of PV systems was organized by the Department of Mechanical Engineering at SITAM Engineering College, Gajalanga. **B. PURUSHOTTAM CHARY**, who was present as the chief guest, said that the generation of electricity through solar and wind energy will increase in the coming period. This will prevent the depletion of the natural resources of the country. It is stated that due to the use of electricity in various forms, harmful actions are taking place in the earth. He said that alternative ways should be explored to stop these, electricity can be generated by using wind and solar waves. Engineering students will get good employment opportunities in this field. Also in this program the Director of SITAM Educational Institutions Mr. Dr. Maggi Shashi Bhaskarum gave said for the workshop "Students need to know the technology of solar electricity and design of solar panels. They are able to provide natural resources. In this program the College Principal Dr. D.V. Basawarthy said that it is important for students to get skills through hands on experience like this workshop.

Introduction:

Green Energy Technologies Company Manager B. Purushottam Chary was the Chief Guest for this workshop. Students have an opportunity to learn about various topics and the difference between renewable energy sources, power and energy calculation, load analysis, component selection, battery safety, voltage commissioning process, calculations related to mounting PV arrays are explained to the students in a comprehensible manner. Due to the achievement of electricity generation through solar and wind energy, natural resources have become even beneficial.

Workshop Structure and Topics Covered:

The following topics were covered during the workshop:

SITAM
SATVA INSTITUTE OF TECHNOLOGY
AND MANAGEMENT
Vijayanagara-515902 (A.P.)

B. Purushottam Chary
Manager
Greenwave Energy Technologies
Hyderabad

- Future Energy Scenario in India.
- Introduction to Solar PV.
- Components of Solar PV System.
- Designing Foundation System.
- Financial Analysis.
- Practical session.

Students who attend the workshop will be able to perform the following:

- Differentiate between various renewable energy sources.
- Perform power and energy calculation.
- Perform Load Analysis, Component selection, battery safety, Voltage drop, commissioning procedures.
- Perform calculations related to mounting PV arrays.
- Optimize the match between an inverter and array, and perform sizing and interconnection calculations.
- Hands on experience on how to install a Solar PV System.
- Can Design and install a solar PV system for his home.

Practical sessions include:

- Identify and measuring V characteristics of a solar Photovoltaic Module
- Series and Parallel connections of a Photovoltaic Module
- Effect of Sun Tracking on Energy Generation
 - a) Tilt Angle and
 - b) Azimuth angles

Finding on the output performance Environmental Impacts on SPV Modules like

- a) Dust conditions
- b) Raining conditions.

Participant Feedback:

Throughout the workshop, participants were encouraged to provide feedback on their learning experiences. The feedback received was overwhelmingly positive, with participants expressing their appreciation for the well-structured sessions, knowledgeable instructors, and

SATYAM IAC
Satya Institute of Technology
and Management
Vijayanagar-535002

Principal
Satya Institute of Technology And Management
Guntur, Vijayanagar-535002

the opportunity to gain hands-on experience and students will experience the technology of solar electronics and design of solar panels.

Conclusion:

In conclusion, the Designing Solar PV Systems workshop has proven to be a highly valuable and enlightening experience for all attendees. Through engaging discussions and hands-on exercises, students gained a thorough understanding of how to effectively design solar PV systems tailored to various contexts and requirements.

The workshop not only equipped participants with theoretical knowledge but also provided them with the practical skills necessary to navigate the complexities of solar PV system design. Overall, the Designing Solar PV Systems workshop has empowered participants with the tools and confidence needed to embark on their journey towards implementing sustainable and efficient solar energy solutions. It has fostered a deeper appreciation for the role of solar PV technology in advancing renewable energy goals and addressing global environmental challenges. As participants leave the workshop, they carry with them not only newfound expertise but also a sense of purpose in contributing to a greener and more sustainable future through the deployment of solar PV systems.

REPORT

The Department of Mechanical Engineering of SITAM Engineering college has organized a two-day workshop on "Applications of Non-Destructive Testing in Industrial Sector", in association with RYS Quality Certification Pvt.Ltd, Hyderabad, on 9th and 10th of November 2023. The Mechanical Engineering students of first year, third year and second year and the faculty members were the audience and they all participated enthusiastically.

The resource person is Sri D.V.V. Narendra Kumar, a well experienced and professional and qualified trainer is ASNT Level-III and PCN Level-III in Non-Destructive Testing. The training session started after the Jyothi Prajwalan ceremony in SITAM College's seminar hall on date 09-11-2023 at 11.00 AM.

College director Sri Majji Sasi Bhushan Rao, Principal D.D.V.V.Rama Murthy, Head of the Department Mechanical Engineering Sri. Ch. Venkata Lakshmi addressed the gathering. Sri Majji Sasi Bhushan Rao while addressing the students, expressed his joy for the initiatives taken by the Mechanical Engineering Department for organizing these kinds of workshops which are beneficial to both students, faculty members and as well as for the college. He also requested resource person and his organization to conduct a certification course in NDT Level II for the mechanical engineering students of SITAM college which in future helps them for their jobs and attributes. Principal, D.D.V.V. Rama Murthy while addressing the students recalled his memories while working as a Quality Control Engineer and the difficulties faced and cost of experimentation while testing an object or specimen for inspection. He compared the present advancements and ease of Non-Destructive Testing methods to the past. He spoke about the various and vast advancements in NDT and appreciated the Department of Mechanical Engineering for organizing the workshop.

The Head of the Department of Mechanical Engineering, Sri.Ch.Venkata Lakshmi addressed the students to best utilize the opportunity and get benefited to the fullest by this

Principal

Gopurapeta, Vizianagaram

workshop. She spoke about the importance of Non-Destructive Testing courses and its responsibility. She spoke about the opportunities in NDT and also gave her valuable suggestions to the students. She thanked the management of JIATAM engineering college for full support extended for conducting these kinds of workshops.

The resource person Mr. D.V.V. Narasimha Kumar and his team started the technical session in the afternoon session post lunch. He spoke about the RVS company's certification courses and different services rendered. He spoke about the importance of Quality Assurance, Quality Control courses, international certifications like CNWIPAWS, ISO9001, International Safety Training, etc.

The students of final year, third year and second year actively participated and shown a superlative enthusiasm and keen interest. They were curious and excited about the hands on experience while performing the live demonstrations for students in business and post work manner. The team of technicians were qualified NDT technicians in LEVEL II as per ASNT norms and have more than 10 years of field experience.

The visual inspection was done with a fluoroscope equipment with a camera attached to a fibre cable on one end and other end to the equipment with monitoring screen. The corrosion inside a long pipes and tubes are observed, inspected and visualised.

The Liquid Penetrant Test was performed on the weld seam on welded plates. Cleaner/ cleaner, Penetrant, White Contrast Developer Aerosol Cans were used for the demonstration. Dwell time, penetrant developer reactions, defects and their interpretations were discussed.

He gave a detailed briefing about Conventional NDT Courses like visual inspection, Radiographic Testing, Ultrasonic testing, Liquid Penetrant Testing, Magnetic Particle Testing, Eddy Current Testing (ASNT, INNT, ISO 9712, NAS 410) and Advance NDT courses like PAUT, TOFD, BCT etc. He explained the scopes, importance and job opportunities and placements in the vicinity of NDT.

The Magnetic Particle Test was performed on the weld seam on welded plates. Permanent Magnetic Yoke method is used for this demonstration. Cleaner/ cleaner, wet magnetic particles spray, White Contrast Developer Aerosol Can, Insta Check ML -720 Magnetic Ink were used for the demonstration.

The Ultrasonic Test was performed on the weld zone on welded plates. Ultrasonic Testing Equipment (MED Soud - Elcom 2111), V2 Block, 1cc Block, 31 Block, Probes and Transducers are used for demonstration. Calibration and interpretation of defects are well explained.

The Radiographic Film Inspection was done under white backlight equipment. Different films and different interpretations and appearances of welding defects of welded joints on the radiographic films were studied and explained.

ONE DAY SEMINAR ON "SAFETY TRAINING AND EDUCATION"

RESOURCE PERSON: *Dr. USMAN KHAN, Principal, Latam Academy of Res and Safety, Vadhapuram*

The seminar at SITAM focused on the pivotal role of mechanical engineers in industrial safety. Addressing the importance of safety training and education, Mr. Usman Khan emphasized the direct impact of mechanical engineering decisions on workplace safety. Sessions covered risk assessment methodologies, innovations in safety technologies, and discussions on compliance with safety regulations.

Distinguished speaker provided insights into real-world applications, emphasizing the integration of safety protocols into the mechanical engineering curriculum. The event concluded with a commitment to fostering a safety-conscious culture among future mechanical engineers. Participants left with a deeper understanding of their responsibilities and the imperative to prioritize safety in their professional endeavors. The seminar successfully underscored the crucial link between mechanical engineering expertise and industrial safety.

ONE-DAY WORKSHOP ON WORLD INTELLECTUAL PROPERTY DAY

- Program / Activity Name: A workshop on World Intellectual Property Day
- Duration of the activity (in Hrs): 2hr
- Start and End Date: 26-04-2024
- Number of Students Participated: 40
- Number of Faculty Participated: 12
- Number of External Members Participated: 1
- Mode of session: offline
- Objective: (in brief) To create awareness about IPR and how to protect the properties and to give recognition to the patent holders.
- Benefits in terms of Learning/Skill Knowledge obtained:

Intellectual Property is important for safeguarding big or small entrepreneurial creation. It allows to promote a creative mindset amongst students. Apart from the many benefits of IPR, students can learn about the ways in which they can safeguard their creation, giving them a competitive edge over their peers.

The one-day workshop on "Intellectual Property Rights and IP Management for startups" that took place at SITAM was an insightful and informative event that covered various aspects of IPR. The event was guested by G. Swamy, Technical Manager of Novel Patent Services, who shared his expertise and insights on the importance of IPR in helping

the gap between academics and industry. He also spoke at length about the need for promoting and protecting IP as a valuable business asset and how it can help startups create a competitive edge.

Dr. M. Sathishchandra Rao, Director of SITAM, in his speech, shared that the institute provides an ecosystem for creativity and innovation, which is crucial for the growth of startups. **Dr. D.V. Ramamurthy, Principal**, motivated the students to explore their creative potential and congratulated all the staff who published patents successfully. **Dr. S. Varadhini, HOD, SITAM**, created awareness about IPR and how patents and trademarks safeguard properties. She also emphasized the areas where the MSMEs of India are falling back in protecting their IP assets.

The workshop covered various topics related to IPR, including patent filing, trademark registration, and copyright protection. The attendees gained valuable insights into the world of IPR and how it can benefit startups in the long run. The management of SITAM also presented cheques worth Rs 1000 to all the patent publishers of the institute, which was a great way to recognize their efforts. The event ended with a felicitation ceremony for the chief guests, followed by the National Anthem.

Dr. V. Narendran, Dean, SITAM, the concerned coordinators of IC, faculty of management studies, and students actively participated in the workshop. Overall, it was a well-organized and insightful event that provided valuable insights into the world of IPR and how it can help startups create a competitive edge in the market.

ONE-WEEK WORKSHOP ON "UNITY: THE GAMING TOOL, IS BEING CONDUCTED AT SITAM, IN ASSOCIATION WITH APSSDC"

On January 2, 2024, in Vizianagaram, a week-long workshop on "Unity: The gaming tool, is being conducted at SITAM, in association with APSSDC.

The workshop aims to enhance gaming skills among engineering students at SITAM. It is organized from the 2nd to the 8th of this month. The primary objective is to foster gaming development among students. The program is facilitated by M. Sathish, a trainer associated with APSSDC, focusing on providing opportunities in gaming and software development.

Dr. Majji Sridharan Rao, the Director of the Institute, emphasized the importance of the workshop in promoting gaming and software development. He stated that the present Digital gaming market is going to increase from US \$ 1.1 billion to US \$ 7.5 billion by 2028 and players like finance industries have also entered into this market and thus providing huge job opportunities. He encouraged students to actively participate for successful outcomes and highlighted the opportunities available in these fields.

Dr. D.V. Ramu Murthy, the Principal, spoke about the benefits of "Unity: Gaming Development" for students, better future prospects. The Computer Science Department head, Dr.G.Venamadhavaiah, along with other faculty members and students, actively participated in the event.
