JNTUGV CODE: **B6**

SBTET CODE: **649**

Criterion VI-Governance, Leadership, and Management

Qualitative Metrics

6.4.3 Institutional strategies for mobilization of funds and the optimal utilization of resources.

SITAM plans to make itself self-sufficient and have strategies for making its departments and/or centres self-sufficient in turn. Though this a herculean task in the ensuing pandemic situation, SITAM started its thrust in the direction of incremental steps. The policy and practice directive includes:

- Developing small creative products and converting them into saleable products through patenting process.
- Attempting to contact local industries and attempting to provide consultancy services in various areas.
- Establishing testing and miscellaneous services for several domains of engineering.
- Identifying creative final year student projects and trying to convert them into patentable ideas.
- Fees:** Fees charged as per the university and government norms from students of various granted and self financed courses.
- Salary Grant:** The College receives salary grant from the BOTCHA GURUNAIDU MEMORIAL EDUCATIONAL SOCIETY. For this, we prepare and send an annual budget of the estimated salary grant required. This grant includes salaries of the Full Time Permanent teachers and non-teaching staff as well as part-time teachers working on granted posts.
- UGC Grants:** SITAM is included in the list of colleges eligible to receive grants from central government and state government and is recognized under 2(F) and 12(B) as per UGC Act, 1956. So we are eligible to receive grants from the UGC for the development and maintenance of Infrastructure, upgrade of the Learning Resources and Research (including grants for Minor and Major Research Projects).

Though some strategies may prove to be overwhelming and achievable only in a span on two/three years, we realize that small sustained incremental changes do result in perceivable, magnificent achievements. SITAM management, students, teachers and nonteaching staff stand as excellent resources towards this. We are optimistic and delighted to participate in such venture.

The SITAM Faculty project, "Antenna with Directional Wireless Communication" by Mrs.M.Harika of ECE Department was turned into a patentable concept. The evidence is included below,

Certificate of Registration for a UK Design

Design number: 6323294

Grant date: 13 November 2023

Registration date: 02 November 2023

This is to certify that,

in pursuance of and subject to the provision of Registered Designs Act 1949, the design of which a representation or specimen is attached, had been registered as of the date of registration shown above in the name of

Dr. Jami Venkata Suman, Mr. Jallu Sateesh, Ms. Muddapu Harika, Dr. Madhavi

Mallam, Dr. Vannala Adinarayana, Dr. Sirish Kumar Pagoti

in respect of the application of such design to:

Antenna with Directional Wireless Communication

International Design Classification:

Version: 14-2023

Class: 14 RECORDING, TELECOMMUNICATION OR DATA PROCESSING EQUIPMENT

Subclass: 03 TELECOMMUNICATIONS EQUIPMENT, WIRELESS REMOTE CONTROLS AND RADIO AMPLIFIERS

The SITAM Faculty project, "Optical Fiber Cable Equipment" by Dr.Y.Narednra Kumar of EEE Department was turned into a patentable concept. The evidence is included below,

Certificate of Registration for a UK Design

Design number: 6325250

Grant date: 18 November 2023

Registration date: 10 November 2023

This is to certify that,

in pursuance of and subject to the provision of Registered Designs Act 1949, the design of which a representation or specimen is attached, had been registered as of the date of registration shown above in the name of

Dr. Balamurali Pydi ,Dr. Kalyana Kiran Kumar, Dr. Sri Rama Krishnam Naidu, Dr Narendra Kumar Yegireddy, Dr. Bendi Venkata Ramana, Dr. Ravikumar tammineni

in respect of the application of such design to:

Optical Fiber Cable

International Design Classification:

Version: 14-2023

Class: 14 OPTICAL FIBER CABLE EQUIPMENT

Subclass: 02 OPTICAL FIBER CABLE

12)Sathyanathan S
 Address of Applicant :M Kumarasamy College of Engineering, Thalavapalayem, Karur Tamil Nadu 639 113 Karur -----

(57) Abstract :
 Brain cancer cells detection technology using the fuzzy learning method is the proposed invention. The proposed invention focuses on studying the Cancer Cells Detection Technology using Machine Learning. The invention focuses on analyzing the parameters of brain cells using algorithms of Fuzzy Learning Method.
